

LESSON 13: Finding Slope

Homework

.....

Directions: Find the slope of the graphed lines.

1. _____

2. _____

3. _____

Directions: Find the slope of each line using the ordered pairs in the table.

4. _____

x	$f(x)$
-1	3
0	5
1	7
2	9
3	11

5. _____

x	$f(x)$
2	9
4	5
6	1
8	-3
10	-7

6. _____

x	$f(x)$
-3	6
4	-15
5	-18
8	-27
10	-33

Directions: Find the slope of each line passing through the given points using the formula for the slope of a line.

7. $(-2, 3)$ and $(4, 7)$ 8. $(5, 1)$ and $(8, 1)$ 9. $(-2, -1)$ and $(-4, 7)$ 10. $(-3, 2)$ and $(-3, 7)$
