

# NTN Math Coach - Full Time

## Change the math experience for teachers and students by becoming part of the NTN math coaching team.

Our NTN math coaches enjoy their jobs because they are rewarded with seeing firsthand, the mathematics growth they foster at our partner schools. The ideal candidate will seamlessly partner with math teachers to offer support and instruction using both The Key Elements to Mathematics Success and/or traditional textbook lessons. They will provide professional development using NTN methodologies and conceptual development in standards-based instruction. This position will also serve as a liaison between the math department and teachers.

### Position Dimension:

The NTN Coach is pivotal in ensuring the proper infusion and fidelity of NTN methodologies for daily mathematics instruction. As such, the coach must work closely with their Professional Development Manager (PDM) and the VP of Professional Development, participating teachers, school administration and designated district staff. While there may be periodic and specific projects assigned to a coach by their PDM, the fundamental obligation of the coach is to provide support and coaching to participating teachers.

### Essential Functions:

Reports to: Professional Development Manager (PDM), Vice President of Professional Development

- Conduct demonstrations/model lessons
- Create and conduct engaging training/PD sessions rooted in NTN Methodologies
- Work with teachers to analyze data and plan for daily standards-based instruction
- Assist in planning curriculum and lessons
- Provide mentoring, coaching, and support to participating teachers
- Purposefully observe instruction and provide feedback to teachers
- Assist in coordination efforts and collaborate with school and district admin regarding ongoing professional development opportunities and needs
- Provide support and assistance as needed and based on qualitative and quantitative data
- Complete daily, weekly, monthly and quarterly reports, noting interactions with school personnel
- Communicate consistently with NTN colleagues and clients promptly and regularly via email correspondences
- Complete other projects as assigned by NTN leadership team
- Thorough knowledge of all NTN Methodology, components and products
- Provide great Customer service and satisfaction
- Keep current with state and national trends/curriculum and testing

# NTN Math Coach - Full Time
