

UNLOCK STUDENT MATH SUCCESS

With MathKEYmatics!

Finally a mathematics assessment tool designed by teachers for teachers. This easy-to-use software provides real-time data, that is always state standards-aligned, and gives educators explicit insight regarding common misconceptions.

EQUIP SCHOOLS

Guaranteed state standard content

Insight regarding common misconceptions

Value priced

Turnkey accounts already student rostered

Ability to easily create common assessments that are standards based across a grade level

SUPPORT TEACHERS

Simplify Instruction load rather than add to it

Easily identify where students need intervention, remediation or acceleration

Access to formative data allows educators to plan and tailor instruction to student and classroom needs

Group students by progress toward mastery of each standard

EMPOWER STUDENTS

Individual student reports measure students' mastery on each standard

Feedback to understand their misconceptions

Immediate actionable data

Individualized practice assignments to address unfinished learning

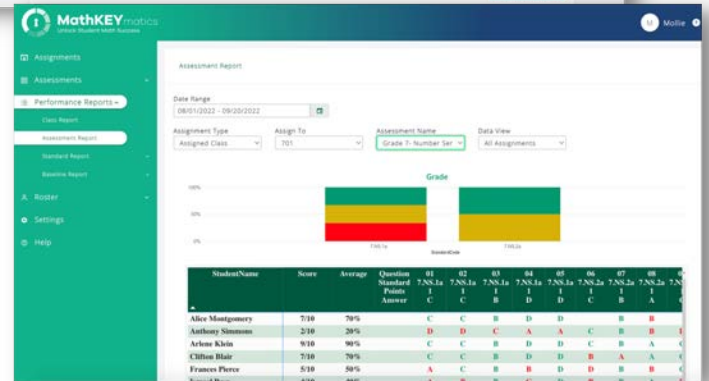

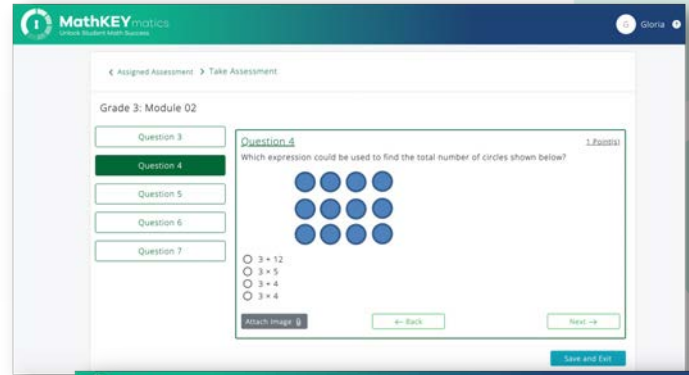

THE TOOL WITH MORE

EASILY CREATE FORMATIVE OR SUMMATIVE ASSESSMENTS YEAR ROUND.

Teaching is fueled by immediate information. This allows teachers to spot gaps and plan the next steps in learning. MathKEYmatics provides real-time information that can be used in conjunction with other assessment programs, or independently.

Easy to read reports give educators what they need quickly. All assessments can be customized for grade level, class, and student. The shared assessment feature allows teachers to easily collaborate.

Common student misconceptions are highlighted, equipping teachers with information to provide accurate understanding.

OUR DIFFERENCE

My leadership team worked closely with NTN on a plethora of high leverage areas: customized teacher development, curriculum mapping, data analysis, and deepening students' learning through problem-solving. NTN was a true partner and an integral force behind the success of my students.

- Principal, Brooklyn, NY
