

UNLOCK STUDENT MATH SUCCESS

With MathKEYmatics!

Finally a mathematics assessment tool designed by teachers for teachers. This easy-to-use software provides real-time data, that is always state standards-aligned, giving educators explicit insight regarding common misconceptions. It also supports teachers with PD On-Demand.

EQUIP SCHOOLS

- State Standard Content and Data
- Insight to student misconceptions
- Value priced
- Onboard and Rostering Support

SUPPORT TEACHERS

- Decrease teacher workload
- Data organized by standard and proficiency group
- Embedded Instructional Resources to build teacher capacity
- Foster collaboration via common assessments
- Virtual tools to practice for online testing

EMPOWER STUDENTS

- Access to virtual tools
- Practice testing in an online environment
- Instant Feedback aligned to misconceptions
- Lessons to build conceptual understanding

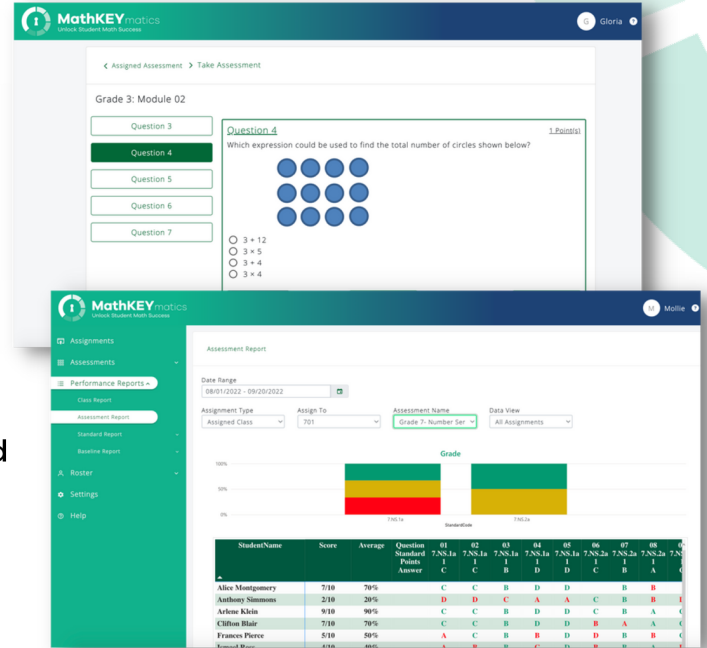

THE TOOL WITH MORE

EASILY CREATE FORMATIVE OR SUMMATIVE ASSESSMENTS YEAR ROUND.

Teaching is fueled by immediate information. This allows teachers to spot gaps and plan the next steps in learning. MathKEYmatics assessments are quick to setup and provide real-time information that can be used in conjunction with other assessment programs, or independently.

Easy to read reports give educators what they need quickly. Embedded PD On-Demand Videos and instructional resources are available to pre-teach and reteach to develop conceptual understanding.

Common student misconceptions are highlighted, equipping teachers with information to provide targeted, specific ongoing instruction.

OUR DIFFERENCE

MathKEYmatics allows me to know based on the choices students have made what misconceptions exist that need to be readdressed. This does not exist in other programs and helps to make reviewing and reteaching a positive experience as you can get right of the root of the misunderstanding. It also helps teachers from a data standpoint know which standards students are approaching, meeting, or exceeding.”

- Assistant Principal, PS304 Early Childhood School, District 8, NYC
