End-of-Year Reflection Template for Math Teams

School: _____

Grade Level/Team: _____

Date: _____

---

1. Instructional Wins

Reflect on your team's biggest successes this year.

- What instructional strategies were most effective in improving student learning?

    ○ _____

- Which math units or concepts showed the highest student growth?

    ○ _____

- How did you support collaboration, problem-solving, or discourse in the math classroom?

    ○ _____

---

2. Student Data Insights

Use data from MathKEYmatics or other assessments to answer the following.

- What trends did you notice in BOY to EOY growth?

    ○ _____

- Which standards or domains were mastered most consistently?

    ○ _____

- What skills or concepts did students continue to struggle with?

    ○ _____

- Are there achievement gaps across student groups (ELL, SPED, etc.)?

    ○ _____

3. Reflecting on Student Engagement & Support

How did your students respond to instruction, and what supports were most effective?

- What interventions or small group strategies made the biggest difference?

  - _____

- How did students respond to assessment and feedback?

  - _____

- What engagement strategies worked well?

  - _____

4. Looking Ahead

Use this year's lessons to guide your plans for next year.

- What will we continue doing next year?

  - _____

- What will we stop or adjust?

  - _____

- What is one priority goal we want to focus on as a math team next year?

  - _____

5. Celebrate Your Team

This space is for recognizing your team's hard work and commitment.

- Shout out a teammate or moment that made an impact this year:

  - _____

- Something we're proud of:

  - _____
